

Customised cooling

We supply customised solutions for trade, commerce and industry.

Our Germany-wide refrigeration service network in conjunction with highly trained, highly qualified refrigeration technicians and modern equipment ensures short response times and fast fault rectification. We are also happy to offer you additional services, such as on-site completion, commissioning, prescribed maintenance and leak tests.

| Services | Article no. |
|---|---------------------------|
| Finalisation | according to offer |
| Commissioning | according to offer |
| Maintenance Refrigeration capacity up to approx. 30 kW: Digital scroll compressor set, 1 refrigeration circuit Inverter outdoor unit, 1 refrigeration circuit | 0099848 |
| Maintenance Cooling capacity from approx. 30 kW: IK-S compressor set, stepless, 1 cooling circuit IK compressor set, stepped, 2 cooling circuits | 0099849 |
| Repair | according to charge rates |
